Hey! My name is Dorian Alexander Patterson. I like to write about software and development, games, animation here. If you find something I've written about interesting, please share it with others. Feel free to contact me via email or Twitter.

Formally, I have a background in Theatre, but I have some experience in software programming, mostly as student exercises, but I have professional experience working in the niche scripting language Maya Embed Language (MEL) as well as hobby experience with front-end web development (HTML, CSS, JavaScript) and back-end web development (PHP, Node.js).
